

# Ambu<sup>®</sup> Man Airway Wireless

# Ambu<sup>®</sup> Man Airway Instrument

Arms and legs optional available

## Key features

- Robust and durable
- Training of airway management: like laryngeal mask, laryngeal or tracheal tube, Combitube, ET tube
- Bag mask ventilation and placement of Guedel tubes
- Adjustable chest stiffness
- Airways open only with correct hyperextension
- Transport bag with integrated practice mat and backpack function

### AmbuMan Airway Wireless

- Latest Ambu Wireless Technology
- Browser-based Ambu Manikin Management Module for control, documentation and monitoring

## AmbuMan Airway

With AmbuMan Airway all common methods of airway management can be trained. Therefore this training device is not equipped with the Ambu Hygiene System for mouth-to-mouth or mouth-to-nose ventilation. The fullbody upgradekit is available as an option, whereby the manikin can also be brought into a sitting position. After unfolding the transport bag, it can be used as a comfortable practice mat.

### Monitoring instrument

The indicator shows the instructor, the volume of supplied air (in L) and the chest compression depth (in mm). Furthermore, it visualises the compression with wrong hand position and a gastric inflation with a warning symbol.

### Ambu Manikin Management Module

The core is the AmbuMan with the latest, integrated Ambu Wireless Technology. The browser-based Ambu Manikin Management Module allows the wireless control, documentation and monitoring of the trainee's performance. The Ambu Manikin Management Module is the central interface, where all data and information come together: compression depth, correct hand position, ventilation volume, stomach inflation.

### Airway management

Training of airway management: like laryngeal masks, laryngeal or tracheal tube. Bag-mask ventilation and use of the Guedel airway. Airways open only with correct hyperextension.

# Specifications

AmbuMan Airway Wirelss	Connectivity	✓	WLAN or LAN Ambu Wireless Technology built on latest generation of Intel WLAN Modules
	Ambu Manikin Management Module	✓	Operating system independent and browser-based control, programmable scenarios, individual documentation for up to 4 participants, parallel display and control of up to 6 manikins, parallel multiple access of various devices for visualization of the performance
	Power supply	✓	AC adapter, Battery pack or PoE (optional, not included in packaging)
Airway-Management	✓		Training of airway management: like laryngeal masks, laryngeal or tracheal tube. Bag-mask ventilation and use of the Guedel airway. Airways open only with correct hyperextension
Manual feedback display	✓		Extendable Ventilation volume, compression depth, hand position, stomach inflation

## Technical data

Weight torso with transport bag	13 kg
Length torso	80 cm
Length fullbody	165 cm

## Order information

Item no.	Description
A 284 427 000	<b>AmbuMan Airway Wireless</b> Torso, integrated Ambu Wireless Technology Ambu Manikin Management Module, transport bag / practice mat
A 284 424 000	<b>AmbuMan Airway Instrument</b> Torso, transport bag / practice mat
<b>Spare parts</b>	
234 000 077	Battery Pack
234 000 706	Upgrade kit fullbody
266 000 517	Ambu Face piece (1 piece)
234 000 794	Transport bag / practice mat

Ambu Man Airway Wireless Torso

Monitoring instrument

Ambu Manikin Management Module

Transport bag (practice mat incl.)
